## R-3, Medium-High Density Multifamily Residential

The R-3 District is established to provide suitable areas for medium density residential development. Such units would be located in areas where adequate city facilities existed prior to development or would be provided in conjunction with development, and where a suitable environment for medium density residential development would be available. Such districts could be used in suburban portions of the city as buffer or transitional zones between single-family and other uses not compatible with low density residential development. Within this district, zero lot line and townhouses are permitted.
